From the West

Many writers and thinkers have tried to define Freemasonry, but it really defeats definition. It is too complex, too profound in conception, to easily expressed in words. Perhaps the simplest and best definition of all is the phrase 'the brotherhood of man under the fatherhood of God;' Our Masonic forefathers had an understanding of human needs and human aspirations. They may never have dreamed of the mindless computer which governs our lives, or the fission of matter which threatens our lives, but they understood human nature and what motivates the spirit of man. Thus, from a simple process of using stone and mortar for building they progressed to the most important of life's functions, the building of character.

The building of character is something that we are all striving to do. Whether in ourselves or by helping each other when in need of aid or comfort. Even the hard but simple act of forgiving a transgression, perceived or otherwise, may cause a ripple effect that we may never see. The forgiven party may act differently the next time he or she is in the same situation having taken a lesson from the experience. Then we can say that we have not only worked on improving our character but that we are working on improving in the world around us.

Thanks, my Brothers for the support you give me and for the support we give to each other.

Happy Fourth of July,
Zack
